

26th January 2018

Mr Ross Whiteman – Order of Australia Medal for Service to people living with Motor Neurone Disease.

It is with great honour we congratulate Mr Ross Whiteman, OAM for being awarded with an Order of Australia Medal on 26th January 2018.

Ross was awarded the medal in recognition for his service to people living with Motor Neurone Disease (MND). The Order of Australia is an order of chivalry established on 14 February 1975 by Elizabeth II, Queen of Australia, to recognise Australian citizens and other persons for achievement or meritorious service.

Ross led the Motor Neurone Disease Association of Western Australia as Chairperson for 14 years following the passing of his wife, Ann Winifred, from MND in 2002. During this time he guided the Association from strength to strength and initiated significant advancement in the services provided to people living with MND in Western Australia.

Ross has been a leader in the community under many banners, including the former CEO of Ray White Western Australia. Ray White are platinum sponsors of the Association to this day and continue to raise much needed funds to support people living with MND.

A very worthy recognition of the selfless work, time and service Ross has given to people living MND. From the Committee of Management, team and MND Community we congratulate Ross for this outstanding recognition. We are extremely proud of your accomplishment.
